More general quality details of our inflatables are following:

1. Reliable and durable Material

Top quality material are always applied on our inflatables, and all of them are from one of the best material suppliers in China - Plato chemical; All of the materials we are applying meet EN71-2-3.

2. High precision stitching machine and cultivated stitching workmanship

All of our stitching inflatables are stitched by high precision stitching machine with superexcellent 9 in one waterproof nylon threads, and like following image shows, the length of every single stitching is around 4mm which is the top standard in inflatable field; most importantly, we always apply double stitching anywhere in the inflatables and quadruple stitching in positions sustaining much force and pressure from jumping.

3. High precision heat welding machine and elaborated welding work

All of our airtight inflatables are made with high temperature multifunctional welding machine, which is necessary and efficient for massive airtight inflatables, such as inflatable water toys, zorb seires, swimming pools, airtight inflatable tents etc; Based on our perfect design, we can perfectly seal all the material pieces together into any reasonable inflatables, and heat weld all of our airtight inflatables with top quality standard with high efficiency.
