#### Quality Standards:

1. High quality Plato commercial grade PVC materials (for outdoor rental business).
  2. Double stitching inside and outside.
  3. Quadruple stitching for stress-bearing parts and joint parts.
  4. Reinforcement belts webbing reinforces for stress parts.
  5. Vivid artwork:We mainly have digital printing, silk printing and hand painting. We imported the digital printing machine from Japan, which prints quickly and in good quality. The quality of print ink also meets SGS standard. Moreover, we make a liquid protecting film on the surface of digital printing, which makes our products not to be sticky and no color fade, but to sustain a long time.
  6. Easy deflation:We make enough air-out zippers for each inflatable product according to the requirement of EN 14960, which can help you deflate this inflatable product more quickly. We reinforce for all the zipper joints, and there is a zipper cover by material, which helps to disperse the zipper's stress.
  7. Extra soft handles for climbing area.
  8. Anchor rings for safety concern.
  9. Reinforcements for zipper joints.
  10. Zipper cover with hooks & loops fastener to disperse the stress for zippers.
  11. Our workers have over 10 years of experience in inflatable field.
- We have our own designer team to develop new designs and custom make your idea into reality.
12. Strict quality control. CE, UL, ASTM, EN14960, EN71, NFPA 701 No Lead, Fire Retardant certificates.
  13. Good after-sale service. Reply customers' question, request, problem in timely and professional manner.
  14. Price control. Promise based on high quality, offer best competitive price.
  - 15.Quick delivery and fast transportation

#### How to protect it ?

- 1). Please don't take any key,knife or anything sharp ,in case that itwould be damaged .
- 2). It would be better to be kept away from the long time sunshine directly .
- 3). It would be better to put it in a dark and dry place and without rats .
- 4). After using ,it have to be cleaned and dry .
