- 2). Each Funworld inflatable toy is equipped with thick D anchor point, it's used to be fixed on the ground and remain steady.
- 3). The outlet with two zippers is use for faster deflating and the is use for protecting the zipper. Each toy has two pipes for inflating.
- 4). Various design, size and color for choice;
- 5). Sample order is acceptable, the lead time is 7 days after received sample fee;
- 6). Cilent's design, size and color is acceptable.

FAQ:

Q: What are Inflatable Tents made of?

A: durable PVC tarpaulin or PVC vinyl material, weather-resistant, waterproof, fire-retartant, UV protective, 0.25mm to 1.0mm thickness available.

Q: Why PVC vinyl more expensive than PVC tarpaulin?

A: PVC vinyl is better than PVC tarpaulin mainly by following features:

- 1). excellent abrasion resistance
- 2). outstanding low-temperature performance
- 3). more heavy duty and better wind resistance.
- 4). better printing effect
- 5). very good tear strength
- 6). easy to clean
- 7). easy to repair by glue

Q: How to inflate an Inflatable Tent?

A: Can inflate by an electric blower/pump included. It usually takes 3 to 30 minutes to inflate a tent depending on design.

Q: Can we use Inflatable Tent in winds?

A: Yes, the tent itself is usually heavy to stand stably, we make D rings and match ropes for you to tie for more stability. You can also use sand bags or water bags to increase stability. However, please use depending on actual scene.

Q: Can we use Inflatable Tent in rain?

A: Yes but since the blower is connected with electricity (unless upgrade to Airtight style), we don't suggest long time use under heavy rain although the tent material and blower plastic case are waterproof.

Q: Can make with our logo printings?

A: Yes. May be for free or charged depending on quantity, printing colour and size. You may send us high resolution artwork in JPG, PDF or PSD.

Q: What happens if the Tent punctures?

A: Due to constant blown air, the tent can still be blown up and use as long as the damage area is not big. The damage can be repaired by sewing machine, and PVC vinyl tents can also simply be repaired by our repair kit (material patches and glue).

Q: Can you send me design sketch to confirm before production?

A: Yes. After you place an order, we can use your custom requirements to make a design sketch, and will start production after your confirmation.
