3 layers PVC tarpaulin: strong fire retardant & water-proof

Upper layer: Double Thickening Water-Proof and Scratch-Proof PVC

Middle layer: Strong Tear Strength Polyester Fibre Mesh

Bottom layer: Double Thickening and Super Pressure Resistance PVC

Feature:

Upper: Unique concave and convex stamped .super water proof and scratch proof

Middle: Closest warp and weft together .super tensile and tear strength

Bottom: Unique concave and convex stamped .super pressure resistance and heavy load.

Double stitching detail&jointing clcats:

Our sewing technology is double stitching with fourfold stitching inside and double stitching outside to make sure the products are strong enough.

Reinforced strips at joint:

At the bottom joint and each corner .So when the kids bouncer on the products ,you do not need to worry about the safety at all .The bottom can bear the kids no matter how they play.

D ring for fixation:

Each product will have thick D rings or circle rings to fix the inflatable .It makes the inflatable steady

Stitching:

Double stitching is applied to all our products both inside and outside. We add double stitching on quadruple stitching or use extra patches on all the stress places, such as the corner ,the joint and the forced parts . Double-quadruple stitch everywhere plus extra reinforcements by PVC stripes.

What we have:

1. We specialized in inflatables over 20 years.
2. Our design team with rich experience on design . Each design we give to you will more than you can imagine .
