Certificate	CE, EN14960, , SCT, EN71
Printing	Logo printing available
Application	Personal use, rental and events

FAQ:

Q: What are the trampolines made of?

A: Our trampolines are made of durable PVC tarpaulin.

Q: What happens if the trampoline punctures?

A: If the trampoline punctures there is no reason to panic. Small and large holes or tears can easily be patched and sealed. If there is a leak in the ball simply signal the instructor and you are pulled ashore. The ball will not sink unless it is completely destroyed. The ball can easily be patched with repair kit in your order from us.

Q: Where can the trampoline be used?

A: Trampoline can be used anywhere where there is water, lakes, pools, beaches, amusement parks and inflatable pool. If the trampoline is to be used on open seas, our specially designed safety nets should be used.

Q: How are the products inflated?

A: The inflatables are inflated with air from an air blower/pump/compressor. It takes about 5 minutes to inflate.

Why Choose Barry Industrial

Barry has been concentrated in inflatable toys for many years and is able to custom make any inflatable products according to customers' requirements, such as inflatable bouncers, castles, slides, combos and more. Our water slides (the longest slide in Dubai is made by us), water parks (more than 2000 successful cases both home and abroad), inflatable tents (inflatable/airtight/EXTRA giant) and inflatable toys (land/pool/lake/ocean) have earned ourselves a good reputation for the excellent quality, fast production, prompt delivery and price!
