## Product Description

### 9Feet to 17 Feet OEM high quality inflatable stand up paddle board with Pump

Inflatable stand up paddle board (ISUP) are a great option for camping trips, boating and riders with limited transport/storage space.

The board is amazingly stiff due to high quality material and professional design. Our high quality Drop-Stitch construction makes our ISUP to maintain unrivaled stability and rigidity in the inflatable product category.

#### Description

This 11' board is also the most popular inflatable stand up paddle board in the world. It was designed to match the requirements of the all round rider, it can float and glide easily on flat water, while still riding smoothly and predictably in surf. It is also designed as the ideal board for riders over 154lbs/90kgs or for those that want to take the family on board. It's a family affair with the 11'.

The thickness 6" increases stiffness but not affect the ride and performance. Besides, this Fin placement and rocker lines are the key ingredients that turn the boards from being ordinary into something that you want to ride again and again.
