## Product Description

### Commercial PVC Portable Water Containment / Water Reclamation Mat For Washing Car

#### Description:

The Car Wash Mat is made from a flexible heavy-duty poly material that is 40 mil thickness but more flexible than our model with the berm brackets. The foam berm is 4" high, and will contain all of your wash water while you are washing the vehicle. You can easily drive over the berm to go onto and to get off of the mat

#### About The Goods:

The Water Containment System:

240" long x 120' width with 4" inflated Berm Edges

20 feet by 10 feet wide

professional inflation and deflation Valve

Rapid Pump-Electric Fast Fill Pump that inflate

Rapidly deflates the beams on your system.

Thickness 0.48mm = 19 gauge

Mat black color (because it is cool)or custom made

Packing: each unit comes rolled/folded,with a pvc bag,and the blower in a carton.

Repair Kit: Yes

Lightweight- 30 pounds of light weight material.According to the car mat size.

#### Mobile Car Wash Equipment Advantage:

As we know,many parts of the country have water restrictions and will not allow the use of large volumes of water to wash cars.And our car mat will help you save the water,use a little to clean your car.No worries about water running off into the restricted areas.Save water,save your money.

#### Inflatable Wash Pad: Technical Information:

1.PVC (Polyvinyl chloride) Standard Material

2.TPU (Thermoplastic Polyurethane)
