Product Description

10x2x0.2m Tumble Track Inflatable Air Track For Gymnastics

What is the air track mat?

Airtrack Mat will stand repeated jumps and hard trampling without wearing off that easy. This is because it is made of smooth rubber that cushions against the air inside. This is contrary to the old gymnasium equipment that wore out so fast. There is no that destructive and obnoxious noises during training since once the air-track is inflated that is enough until training is over. This gives you a piece of mind and a chance to closely concentrate on your techniques. The air inside is soft and bouncy enough to give you a higher jump. In this case it gives you an air-time to perform that twist or turns in the air before landing.

Specification:

Name:	air track
Brand	Barry
Size:	10x2x0.2m or customized
Material	DWF material+1.2mm pvc
Color	blue
Package	PVC Tarpaulin Bag + Weaving Bag. (double package)

Advantage:

1. Very light and easy to move around the gym.
2. The air track can be placed on the gym floor, the rod floor, the artistic gymnastics floor etc.
3. The required OV10 blower is very light
4. Pressure is easily customized within seconds
5. Inflating and deflating is done in a single minute
6. No noise during trainings
7. After inflation, the air track will maintain its pressure for hours, refill only takes seconds
8. Easily portable from gym to gym. The Air Floor is so light and small it will easily fit on the back seat of your car.
9. The takeoff is soft, which helps prevent injuries.
10. The Air Floor will allow you to jump higher, giving you more precious airtime to work on your technique.
11. Jumps can be repeated more often with less chance of overuse injuries than on traditional training equipment.

FAQ

1. What dimension I can order?

We have different heights of inflatable air track: **8cm/10cm/15cm/20cm/30cm**.

Length could make from 1 meter to 25 meters, and the air track mat could be 4*4 6*6 8*8 10*10m.
