Product Description

Outdoor Inflatable Toys 100% TPU/PVC 1.5m Red Dot Inflatable Bubble Soccer Ball

Description:

Bubble Soccer is the perfect sport to learn the game of soccer, and people can get more out of the sport than what people would get in traditional soccer. This game is very fast paced since there is less schemes and rules to the game which allows for flexibility to the player to simply read and react. You are playing soccer but you are also carrying an inflatable ball on your shoulders which allows you to bump, roll and flip down the field as you laugh and enjoy the game of soccer with your friends. But please don't worry about the risk of an injury since you're in a bubble and the majority of your body is protected from immediate harm. However it is not only perfect for soccer but also many types of activities: Body zorb Football ,Last man standing ,Body Zorb sumo ,Body Zorb Tag ,British Bull dog etc. These interesting games surely will get you put down TV remote and electronic devices to go out and exercise.

FAQ:

How to use the bubble football?

1. Check the **bubble soccer** carefully before inflating it, and make sure there are no sharp things on the ground .
2. Use the air pump to inflate it and make sure the air is full enough.
3. Check it again to make sure the body zorb without any punctures.
4. Put the **bubble bumper** on.

How to storage?

1. Deflate the **bumper ball**. When carrying the ball, you should avoid dragging and fraying it on concrete or other rough surface, which will result in leaking.
2. Clean and dry it complete.
3. Use the Oxford bag or the carton to package it well, and put it in a dry place.

How to repair bubble ball?

1. Find out where the hole is. Inflate the **bubble ball**, use the soap-suds besmear on it, if you find where will bubble up, please note of the position, here is the hole.
2. Use the banana oil or sandpaper to make surface around the hole to get rough, also make the TPU patch to get rough, then use the glue besmear on. After 3-5 minute, put the TPU patch on the water roller and pressurizes.
3. Let the glue dry complete.
