## Product Description

### 3m 4m 5m 6m 7m 8m 9m 10m 12m 15m 16m 17m 18m 20m Airtrack Gymnastics Mat with Air Pump

#### Product features:

##### 1. Completely assurance

Our structures work with good sewing technic, they are 100% strong. They require the constant use of an electric compressor, and therefore need to be connected to an electric socket or to a generator.

##### 2. Easy of Use

Ten minutes are all that is required to inflate our modules with a CE/UL pump. This time is greatly reduced by the use of 780W electric pump. It is of course possible to inflate them in the traditional way, by using a mains voltage pump. Our products eliminate problems with interlocking tents together, creating multiple rooms and any problems with assembly instructions.

##### 3. Safety of use increased

Our structures do not have rigid element. This ensures the best security for present material assets and people.

#### What material we used?

DROP STITCH FABRIC(double wall), many space yarn inside, to keep the surface flat!

**Electric pump for inflate & deflate.**

Size	Customized(the thickness have:10cm,15cm,20cm,30cm)
Material	DWF(double wall fabric)and PVC
