Air track Process of Production:

- 1,Durable Plato PVC tarpaulin drawing material, stick with Korea good glue. The air mats are gas-tight and durable for its advanced production technology and superior-quality materials.
- 2, Adopt wire bearing workmanship in the inner,good elasticity, strong bearing capacity, and not easy to deform.
- 3, Close valve design, completely sealed and no leakage.
- 4,The most prominent advantage of the inflatable air tumbling mats is that it's possible to fold and unfold them quickly. Optimum air pressure in all conditions. Compared with the traditional foam-based mats, It take up much less space after deflating so the storage and transportation become pretty simple and economic.
- 5, All the adhesive parts of all the use of glue bonding, peel strength and high temperature, hydrolysis resistance, anti-ultraviolet performance are excellent, even in the sun exposure, the stability of the air connection parts are fully guaranteed.
- 6, Material color fastness, cloth color as long as the new, special wear-resistant two-color body care, so that the hull durable.
- 7, Applicable to all-level tumbling competitions and repetitive training. They could be utilized in many different ways, such as dance clubs, various types of gymnastic exercises, high-performance training, fitness clubs or Gymnastics for All.

Advantages:

1. Very light and easy to move around the gym.
2. The Air Floor can be placed on the gym floor, the artistic gymnastics floor etc.
3. Pressure is easily customized within seconds
4. Inflating and deflating is done in a single minute
5. No noise during trainings.
6. The Air Tumbler will quickly become the favorite apparatus in your gym
7. Great for classes.
8. Safe and easy for beginning gymnast

Our Advantage

1.Constant temperature and humidity production environment

From the processing of raw materials to further processing to finished products, the temperature of the production environment can be well controlled to show the high quality of the products.The control of the temperature and humidity of the production environment plays a key role in ensuring the stability of the glue performance.Because of this, our products use much longer life than their peers.

2.Product quality inspection

For the built-in air pressure of the finished product, there is a further comprehensive inspection system for the presence or absence of air leakage to ensure the quality of the product.We have a professional quality inspection team of 5 people,make a thorough and detailed inspection before each finished product package and fill quality assurance report for every order.

3.OEM & ODM

All of our products are custom-made, color styles are available for you to choose, our duty is to provide you the most satisfactory products and the best service! And we have long-term agents, I hope we can have the opportunity to work together. As long as you take the initiative, we can let you have a different service, you are satisfied!
