Product Description

0.8mm PVC/TPU Dia 2.5m 3m Grass Zorb Ball Inflatable Zorb Ball

Zorb ball is a double-sectioned sphere, with one ball inside the other with an air layer between. This acts as a shock absorber for the rider, damping bumps while traveling.

Zorb balls are lightweight and made of flexible plastic. Many zorb balls have straps to hold the rider in place, while others leave the rider free to walk the zorb ball around or be tossed about freely by the rolling motion - water can be added inside, and this is commonly called a " water or aqua ride ".

Feature:

1. Made of 1.0mm PVC/ Tpu and in compliance with EN14960.
2. Easy setup and convenient to be used in different places.
3. Inflatable body zorb balls are interesting and colorful.
4. Excellent waterproof and fire-resistant factors make itself durable in daily use.
