Connect flap	0.9mm commercial grade PVC tarpaulin	2.6Lx0.55W

Advantages of our kids water park games:

1. We add reinforcement strips for all our products, so the items have good airtightness and more durable
2. We install high quality air relief valve made in on our water parks, so the items can release air to a safety level automatically when it's getting hot in the noon.
3. For parts like anchor rings and handles, we use the big high frequency welding machine to weld on the products instead of glue on by hand. The parts and the main body are fused together so the quality is very stable and will not peel off.
4. Our newly developed eyelet connection system makes the whole water park no gaps and very stable
