Product Description

Fanatic Sup Norway Cold-Resistant Ski Facility Snow SUP Winter Sup For Custom Made

Description:

Snow SUP? What's that? Stand-up paddle boarding on snow is guaranteed to be just about the most fun you'll have all winter! Last winter, we were desperate to find alternative methods of having fun on the snow. So here's the dilemma. It's winter, you live in a place where it's virtually impossible to find water to paddle on, but you're dying to get on your paddle board anyway. Answer this, is there a decent amount of snow on the ground (like, say, nearly a foot)? And, are there any decent sized hills nearby? If you answered "yes" to both of those questions, you're in luck! There is no reason to put your board away for the winter, it's time to hit the snowy slopes!

Playing around with paddleboard on the snow. Do you have any of the same questions?

1. Do you have a fin on or no fin?
2. My inflatables all have the 2 side fins or 3 fins, do those matter?
3. Do you inflate to max PSI? Or go lower?
4. Do you use your leash? I don't really want to chase my board down the mountain after I inevitably fall off?
5. Helmets? Seems like a good idea...haha!
6. When do you bail? Is it a duck and roll kinda thing or snow angel yourself?
7. Any other tips??

contact us,we will offer you the detailed answer
