Product Description

Staying Safe Cold Weather Good Quality Ski Snowboard Paddle Board Snow

The material of inflatable skis is similar to that of sup paddles. The main difference is that the PVC used in the former is a cold-resistant PVC material, which can be used in environments from minus 30 to minus 50. The price of this kind of PVC cloth on the market is 15-20 yuan/kg.

Inflatable skis can be used for skiing as well as paddling and surfing, but inflatable skis are not often used for skiing.
