Accessories	Adjustable paddle, fin, hand pump, ankle leash, backpack, repair kits.
Production Time	7-15 after received the deposit
Payment Term	Alibaba trade assurance, T/T

### Advantages of paddle board

- \* **Excellent Balance Performance** The SUP has sufficient length and width to improve its stability and better resist the impact of waves. 3 bottom panel fins can effectively improve speed, handling and steering for easy use and control. Our paddle board is perfect for all skill levels and suits in most water environments.
- \* **Light weight and Portable Design** The backpack makes it easy to carry it wherever you want, such as surf, fish, yoga or compete with friends to increase fun.
- \* **Non-slip and Soft Deck** The non-slip pattern in the middle of the deck can avoid accidents as much as possible. The bungee cords on the deck makes it easy to store your backpack and other items. The safety leash ensures that you don't have to worry about accidents when slipping.
- \* **Durable and Premium Material** Made of double-layer PVC material and V-drop stitch core, it has a sturdy structure and strong load-bearing capacity.
- \* **Complete SUP Kit & Fast Inflation** We provide an adjustable paddle, manual air pump, backpack, safety leash, repair kit and removable fin in package. With a manual air pump, you can easily inflate and use it. When it is deflated and rolled up, this paddle board is easy to carry and store.
