Shipping:	By Sea, By Air or By Express (Door to Door DHL, UPS, Fedex, TNT, etc.)
Payment:	50% Deposit. By T/T (Bank/Telegraphic Transfer), Western Union, Money Gram, Credit Card via Alibaba Trade Assurance, etc.

Introduction:

A water walking ball is a large inflatable sphere that allows a person to walk on water. Water ball is similar to Zorb, but it has only one layer and is designed for water travel or human bowling rather than downhill rolling. The giant ball is usually two meters in diameter and has a zippered entrance for easy entry and exit. It stores flat and weighs around 15 kilograms, and can be inflated for around 1 minute with an air pump or blower. Some models also have hand grips on the inside, and the advertising logo can be printed on the surface.

Quality Standards:

1. We use 100% pure PVC or TPU materials, the performance is stable and will not become foggy.
2. We use Professional Machines for Cutting, Welding, and Printing to ensure high quality.
3. We use Germany High-Quality Waterproof TIZIP Zippers with hooks & loops fastener cover for openings.
4. We use rope attachments/handles with standard Gluing + Welding workmanship.
5. We use professional Digital or Screen Printing workmanship to ensure logo printing quality.

Why Choose Us?

We have experienced team and high-tech types of equipment.

Our material is water-proof and lead-free.

We can make products according to your requirements, such as your size, color, design, and your logo.

We can offer you a very competitive price.

You can get expert guides from us all the time.
