Introduction:

Giant transparent hamster ball for humans, the top quality TPU water walking ball. Four handles design, yellow Velcro cover for the zipper, free logo printing. People climb inside the plastic ball and walk around the water surface. Do not play it alone because it needs someone to open the zipper for you, and every ride should last no more than ten minutes. This fun fashion water walking game attracts many children to play at amusement parks, shopping malls, and fairs every year.

This inflatable human hamster ball for water walking is made of commercial-grade 1.0mm PVC / 1.0mm TPU material. Designed with three blue hard plastic handles and blue color Velcro zipper protective cover. Riders get inside the plastic ball and walk inside, then the ball rolls along the water surface. It attracts many children to play at amusement parks, shopping malls, and fairs. The ball is sealed by the high-quality reinforced zipper, and each ride typically lasts five to seven minutes for safety. The materials of this human hamster ball can be made of PVC or TPU as your request.
