Our advantage:

With 6000 sqm production workshop, higher capacity

Our workers and designers have over 24 years of experience in the production of inflatable products.

The material we use is Plato 0.55mm PVC tarpaulin, 3 layer enviromental protective fireproof fabric. safe for kids to play

All of our products comply with international quality standards and are widely sold and use in different market throughout the world

Our well-equipped facilities and good quality control ensure us to guarantee total customer satisfaction.

Design and Material Selection:

We focus on our design and production. Safety is our Mission. All the products are designed for your special requests. More than 2000 different designs are available for your choice.

Our material is commercial grade PVC tarpaulin. It is water-proof, fire-retardant, UV-treated and passed SGS certificate. It has mesh fabric with pvc coating to provide the material higher strength and flexibility.

Making Craft:

Sewing, All our inflatable products use Double, Quadruple, and in some areas 6-way box stitching to ensure our products will last.

All the products are manufactured to be safe and durable.

1, Double-layer material sewn on stress areas like the bottom of the bounce house's pillars, pop-ups, entrances, and high traffic floor seams to build the game stronger and safer.

2, Every bouncer will have 8 pieces of big D ring safety anchors at least to make the units more steady and the slide will have more.

3, Have reliable commercial grade zippers with Velcro cover. All have integrated back flow flaps on deflation zippers to reduce air leak.

4, Blank business banner, business card holder ,warning sign are available.

5, Vivid hand painting and digital printing makes the inflatables more attractive.
