#### Advantages of our inflatable city slide:

1. We add reinforcement strips for all our slides, so the items have good airtightness and are more durable.
2. For parts like anchor rings and handles, we use the big high-frequency welding machine to weld on the products instead of gluing on by hand. The parts and the main body are fused together so the quality is very stable and will not peel off.
3. We install a high-quality air relief valve made in on our slides, so the items can release air to a safety level.
