Product Description

Factory Price Air Track Tumbling Inflatable Gymnastics Gym Airtrack

Description:

Tumble-track & AirTrackMats selling: Top Reasons You Need the Best Air Track Mat for Sports. The importance of a great airtrack mat cannot be emphasised enough. However, before we talk of the advantages of using an airtrack mat for your sports practice sessions, it is important to understand what exactly it is. You can think of an airtrack mat as a large air filled cushion or a giant air mattress. Unlike a ground runner, it is elastic and soft. These mats are easily portable and convenient to store. For these reasons, airtrack mats have become extremely popular among gymnasts and other sports enthusiasts. Zorbing-balls.

Feature:

1. Durable Plato PVC tarpaulin drawing material, stick with Korea good glue. The air mats are gas-tight and durable for its advanced production technology and superior-quality materials.
2. Adopt wire drawing workmanship in the inner, good elasticity, strong bearing capacity, and not easy to deform.
3. Close valve design, completely sealed and no leakage.
4. The most prominent advantage of the inflatable air tumbling mats is that it's possible to fold and unfold them quickly. Optimum air pressure in all conditions. Compared with the traditional foam-based mats, It take up much less space after deflating so the storage and transportation become pretty simple and economic.
5. All the adhesive parts of all the use of glue bonding, peel strength and high temperature, hydrolysis resistance, anti-ultraviolet performance are excellent, even in sun exposure, the stability of the air connection parts are fully guaranteed.
6. Material color fastness, cloth color as long as the new, special wear-resistant two-color body care, so that the hull durable.
7. Applicable to all-level tumbling competitions and repetitive training. They could be utilized in many different ways, such as dance clubs, various types of gymnastic exercises, high-performance training, fitness clubs or Gymnastics for All.

Quality Control Steps:

- 1) All materials are sourced, bought, and controlled by our factory.
 - 2) All mats undergo a multipoint inspection before being shipped out, including a 16-hour pressure test to ensure airtight seals, and pre-shipment pictures and videos are made to document each product.
 - 3) Air Track is individually labeled and documented to monitor and file the complete production process.
- If it's air leaking, don't worry! 99% of all damages are repaired within 10 mins using the repair kit. We have material and instructions ready for you and we'll assist you in every step of the repair process.
