## Product Description

### Inflatable Mechanical Surfboard With Machine Surfing Simulator Game

#### Description:

The resulting "wave-like" shape permits riders to slide down, carve a turn, and ride up the simulated wave surface. The game offers the thrill of surfing, skateboarding and snowboarding in a self-contained, compact, flexible and safe design. is a breakthrough in sheet flow technology.

Although the game has proven successful in different settings like outdoor and indoor waterparks a new wave of development is growing in city run operations. Traditional municipal competition swimming pools are money losing operations.

However, this game enhanced aquatic facility can subsidize the cost of a traditional competition pool, as well as provide additional aquatic recreational services to the local community.

This game appeals to a broad range of age groups, from kids learning to ride a wave for the very first time, to teenagers and young adults who like to rip it up and throw spray.
