#### Advantages:

##### 1.High quality materials:

We use high quality 0.55mm/18oz 1000D PVC tarpaulin for inflatable bouncers and 0.45mm for decoration part, 210D Oxford material or PVC coated nylon for advertising inflatables, 0.9mm pvc for air sealed inflatable water games and tents. We will suggest the suitable material for the right product to meet your requirements.

##### 2.D ring tether system:

Every 1.5-2m one D ring on each side of products and more D ring at the back wall of each giant products to protect the products from wind,also setting up and fixing the products easily.

##### 3.Reinforced at the joint:

Reinforce strips at the bottom joint and each corner to make it safe.

##### 4.Safety netting:

Keep the air flowing and provide a easy viewing to the guardian.

##### 5.Outlet with zipper:

The zipper make the deflation easy,and the flap covers the zipper to slow down the loss of zipper. In addition,The flaps will slow down the loss of the air leak when the power off to make it safe.

##### 6.Business card holder

Want to expand your rental business?

You deserve it ! A big business card holder to place business cards and brochures

##### 7.Double stitching

We do double stitching everywhere, with fourfold stitching at stressed part point Double stitching inside and double stitching outside to make the inflatables strong enough.

##### 8.Climbing ladder

We reinforce the handle with double strip,and help handle on the climbing ladder make kids climb the ladder easy.

##### 9.Strong inside Baffles

Upgrading the baffles system provides the MAXIMUM strength of the internal baffles.

#### Tips on inflation&caution:

--spread a tarp on the ground or roof

--spread inflatable; locate air intake sleeve and connect it to blower; turn on blower;

--you can either inflate fully the model while it's lying down on its back and then slowly pull it up, or pulling it up slowly while inflating it;

--stay away from sharp objects or strong winds over 25 mph; --once wet, it must be brought indoors to be air dried (using blower) before being folded; or it will fall off.
