Product Description

Deep Kids Light Blue Color Inflatable Pool With Air Pump And Logo Printing

Specification

If we are looking for an inflatable swimming pool for adults, most people will choose the rectangular. But if we are selecting an inflatable water pool for children, then the round pool is ideal. Compare to the commercial use, round inflatable pools are more common in home use. Round shape is the favorite shape of children, because they are small and don't need a long swimming distance. They can sit down and play their water toys. As we know, with the same side length, the round shape can provide the largest area. Another unique aspect of round inflatable pools is, they experience similar amounts of pressure spread across the walls of the pool, which ensures structural strength.

The color and the size can be customized,some pictures for reference:
