## Product Description

### Double Layer Drop Stitch PVC Inflatable Stand Up Paddle Board For Sale

#### Description:

Inflatable SUP construction

Single layer & Double layer (2 layers glued on each other)

The construction layer in itself is airtight and is about 0.5 mm thick made from mesh and PVC. Some brands simply sold the board in this construction, which called in the industry "single layer"

But others glued a second layer of PVC on the construction layer. This is called in the industry "double layer"

Fusion technology double layer

Instead of glueing on a second layer, the construction layer was simply made thicker, melting more PVC on it. This is called "Fusion technology" or "double layer light" or "double layer fusion"

#### Paddle Board Accessories

#### Advantages:

##### ULTRA LIGHT

Constructed with additional PVC layer of board rails are highly strengthened the board durability performs like a hard board.

##### EASY STORE AND CARRY

Barry Stand Up Paddle Boards deflate and pack down into the included backpack. Your SUP all over the world with easy transportation on buses, trains and planes.

##### EASY INFLATES&DEFLATES
