## Product Description

### 0.9mm Metal Frame Mobile Swimming Pool Above Ground Inflatable Swimming Pools Outdoors

#### Description:

The great thing about this particular swimming pool is that you get a lot of pool for not a lot of money. It's the type of product that the entire family can enjoy together while allowing space to create great memories over the years. If you've never owned an above ground swimming pool before I reason why I highly recommend the 12×30 metal frame pool because it's a good size — not too big or small, and it has a high rate of customer satisfaction. As one customer of ours said, "It's just right." On top of that, it's inexpensive, well-constructed, and relatively easy to maintain.
