## Product Description

### Portable Inflatable Planetarium Projection Dome Tent Inflatable Projection Cinema Screen Tent

#### Introduction

1. Once inside the dome, audiences first see unique flocked-grey interior "walls." When the projection system is turned on, those inflatable walls do double duty by acting as a superior projection surface for movies and star fields. The surface displays images impeccably, for a sharp, detailed visual.
2. A dome is set up for more than one day or even as a temporary theater in museums or other public spaces such as malls, lobbies, and common areas. Ring domes have been made in sizes ranging from 4-meter domes fitting in trade shows or classrooms with tall ceilings to 8-meter portable theaters.
