#### Feature:

1. The material we used in big inflatable water park has been from the best mateiral supplier in China, and it's high durable, flame retardant and lead free, what's more, the material has 5 layers, 2 pvc coatings with a strong net inside.
2. With best heat welding machine in the factory, we can keep the welding temperature stable when operating, so the water balls will not be overheat welded or lessheat welded, then their life span will be much longer;
3. Reinforcement is applied everywhere on welding seams and the baffles inside, with the best workmanship craftwork made by our experienced workers, the water park will be much more durable and have much longer life span;
4. We always install at least 2 strong stainless steel anchor rings on every sides of single part, so all the single parts of water park can be randomly installed and connected to become a whole big water park, it will save much time for our customers and be convenient much more;
5. We always install high quality air relief valves on big single park of our water parks, so it can release air automatically when the air is too hot and the pressure is too high;
6. We always install soft handles so they can adhere to the surfaces of water parks better then it will have longer life span

#### Why Choose Barry Industrial

Barry has been concentrated in inflatable toys for many years and is able to custom make any inflatable products according to customers' requirements, such as inflatable bouncers, castles, slides, combos and more. Our water slides(the longest slide in Dubai is made by us), water parks(more than 2000 sucessful cases both home and abroad), inflatable tents (inflatable/airtight/EXTRA giant) and inflatable toys (land/pool/lake/ocean) have earned ourselves a good reputation for the excellent quality, fast production, prompt delivery and price!
