How to inflate inflatable Cold Plunge Tub?

HOW TO INFLATE

STEP1

Connect the tube to the upper inflation port of the hand pump.

STEP2

Open the valve cover and insert the tube into the valve, then tighten it clockwise.

STEP3

Inflate until the pressure gauge on the pump reads 8-9 psi. (Refer to the product details and parameters for specific instructions on which parts need inflation.)

STEP4

After removing the tube, re-tighten the valve cover. If the valve releases air at this point, refer to the "Before Inflation" section for instructions.
