Drop stitch fabric combined with PVC Tarpaulin is a kind of air-tight production that is welded by a hot-air machine. This material is available in sizes of 5cm, 8cm, 10cm, 12cm, 15cm, and 20cm. It is extensively used at the beach, water parks, aqua parks, market centers, shopping malls, and other places.

This material is very convenient to use, which means that you can take it anywhere you want, and inflate it whenever you want to use it. Similarly, you can deflate and store it with no difficulty when it is not in use. This material can be used for playing water balls, bumper balls, paddle boats, bumper boats, or any other water games that players can enjoy. This feature is what makes it a perfect ingredient for entertainment purposes.

In a nutshell, this drop stitch fabric combined with PVC Tarpaulin is a great product that offers versatility, durability, and easy handling to the users. It can add great value to the players, and it is an efficient way of having fun while being in the water.
