This inflatable bouncer is a perfect Bounce House combo and bouncy castle for kids to enjoy.

Applications:

Children's parties are the most common occasion for using the inflatable bouncer. It provides a fun and safe environment for kids to jump, bounce and play. The bouncy castle can be set up in the backyard or in a park, providing a fun-filled activity for children of all ages. Corporate events and team-building activities can also benefit from the use of inflatable bouncers. It adds a unique and exciting element to the event, encouraging team bonding and promoting a fun and relaxed atmosphere.

Customization:

Our inflatable bouncers, manufactured by the top-rated brand Barry, are made in Guangzhou, China. The size of the bounce house can be customized to meet your specific needs. In addition to the bounce house, the package includes an air blower, carry bag, and repair kit. The production period for your custom inflatable bouncer will be 7-15 days after receiving your deposit. We offer custom logo printing on the bounce house, making it unique to your brand or event. Our team also provides free 3D design services for your bounce house combo to ensure that you get the perfect inflatable for your event.

FAQ:

Frequently Asked Questions:

Q: What are Inflatable Bouncers Made of?

A: 0.55mm PVC vinyl, 1000D durable laminated cloth, high strength, lead free, water proof, fire retardant and UV protective to withstand up to 120 degrees in temperature. Besides, we use high quality interior baffle materials and durable nylon threads.

Q: How do you do reinforcements and make high quality bouncers?

A: We use professional commercial sewing machines, with strong threads to double stitch everywhere, quadruple or sextuple stitch for sensitive areas, reinforced strips at joints. We also use professional welding machines, high-frequency machines, automatic cutting machines and digital printing machines to ensure strength, durability and longevity.

Q: What standards/certificates do you pass?

A: CE, SGS, EN71, ASTM-6413-99, NFPA 701 (1999) Large Scale, FTMS 191A Method 5903 and Australian AS3533.4.1.

Q: Can add logo printing on Inflatable Bouncers?

A: Yes. This is for free unless printing area is big or logo is customized and complicated. You may send us high resolution artwork in JPG, PDF or PSD.

Q: What can we add for Inflatable Bouncers?

A: Below parts or features are optional (usually For Free or charged according to detail requirements):

1). Logo printings --- You can send us high resolution artwork in JPG, PDF or PSD.

2). Business card holders

3). Entrance ramp --- Most designs already include.

4). Climb, slide, pool, tunnel, basketball or obstacle functions --- Some designs already include.

5). Rain/Sun roof cover --- Some designs already include.

6). Emergency Exit of roof cover

7). Hooks & loops fastener strips for removable banners

Q: What kind of mesh/nettings to make Inflatable Bouncer windows?

A: Small hole mesh/nettings which children's finger cannot put through, soft, comfortable, safe and durable.

Q: How to blow up Inflatable Bouncers?

A: By electric air blowers which are included, we can match suitable power and plugs for you. It usually takes 5 minutes to blow up depending on design. Please make sure blower air hoses and hooks & loops fastener zipper openings (for quick deflation) are closed when in use.

Q: How many air blower hoses on an Inflatable Bouncer?

A: Usually 2 air hoses (1.2m long, with safety flaps inside) on the back base of bouncer, with good looking hooks & loops fastener covers to hide.

Q: Can we use Inflatable Bouncers in winds?

A: Although we make anchoring tie-down D rings (usually 4 to 15 rings for every ground corner and higher points, depending on design) for stability, please use it depending on actual scene, we do not recommend use in strong winds more than 35Km/h.

Q: Can we use Inflatable Bouncers in rain?

A: We do not recommend especially for heavy rain.
