#### What is the The AirObstacle Parkour?

The AirObstacle Parkour is a soft and inflatable obstacle that can be mounted to your AirTrack. It's suitable for vaults, flips and assisted walltricks. Get creative and go for those hundred moves!

#### The Ultimate Safety Solution

Our AirObstacle Parkour is designed with safety as a top priority. It features a high-impact absorption system that cushions falls, ensuring a sturdy surface to stand on while softening the blow if an athlete falls short. By eliminating fear of injury, athletes can concentrate on honing their skills and pushing their limits. It's an ideal tool for beginners in parkour and for freerunning workshops.

#### Versatile and Modular

The AirObstacle Parkour easily connects with the AirTrack P2, AirTrack P3, or a thick mat using our mounting kit. If you already own an AirTrack, you can transform it into a premier parkour playground in just minutes! Additionally, with special patches, it can also be attached to a Carpet Bonded Foam floor.

#### Jump, Flip, Vault

Designed to accommodate a range of parkour basics, the AirObstacle Parkour is perfect for jumps, vaults, flips, and even assisted wall tricks.
