Product Description

The Movement Park Inflatable G2N Air Spot Air Track Workout Parkour Gym Equipment

Description:

The Air Spot is a deceptively simple yet challenging obstacle that will put your ninja skills to the test. This innovative obstacle will have you strategizing your every move as you hop, swing, and balance from one spot to the next. Each step requires quick feet, balance, and focus, making the Air Spot an exciting addition to any ninja course.

Designed to enhance speed, strength, and agility, the Air Spot offers a softer, more kid-friendly alternative thanks to its air-filled construction. Use the straps for support as you navigate from one spot to the next, and if you make a wrong move, you'll land safely on the mat below.

Setup is quick and easy: simply locate the air plug and inflate the spot within seconds using a small blower. Attach the obstacle to your rig using the four loops and quick links around the circumference. The straps on the bottom are secured with hook and loop fasteners, ensuring they stay in place. Crafted from durable 18 oz vinyl, the Air Spot combines strength and safety in a sleek gray and black color scheme.
