Product Description

Commercial Bounce House Air Door Ninja Warrior Floating Obstacle Course Equipment For Adults Indoor

Description:

The Air Door is a versatile obstacle that enhances agility and strength training by offering multiple ways to navigate through it. Switch between in-line and head-on configurations to vary the difficulty and keep your athletes engaged. Jump, swing, and use the foot ledge at the bottom and handles on the sides to transition from one Air Door to the next. The large circular cutout in the middle provides an additional gripping point, making this obstacle both tricky and essential for developing ninja skills.

Strategize your approach by leveraging the small step at the bottom and the side handles to make it across without falling. For lower-level ninjas, a stabilizing strap can be connected to the loops at the bottom of the doors, making it easier to move from one to the other.

Set up is quick and easy: inflate the Air Door within seconds using a small blower, seal the plug, and connect the straps with quick links to suspend the door from your rig. This allows for easy hanging in virtually any location around your ninja course. Made from durable 18 oz vinyl in a sleek gray and black color scheme. **Price is cheap,contact us!**

Includes hanging straps and quick links
Set up and inflate within minutes using a small blower
Inflated dimensions: 6' 6" L x 3' W x 4" H
