- Usage: Outdoor Entertainment
- Application: Outdoor Water Amusement
- Shipping Way: By Air, sea Or Express
- Highlight: **Floating Inflatable Pool Bar,  
Island Inflatable Pool Bar,  
Adult Inflatable Pool Bar**

## Product Description

### Floating Inflatable Pool Bar With Seats For Adult Water Pool Pub Inflatable Pool Bar With Island

#### Product Description:

For those who love outdoor entertaining, the inflatable pool bar is a must-have. It can be used in various settings, from a small backyard pool to a large lake. It adds a touch of luxury and convenience to your outdoor activities.

The inflatable pool bar is easy to clean and maintain. After use, simply rinse it off with water and let it dry. Its lightweight design makes it easy to store when not in use, taking up minimal space.

#### Applications:

One of the best applications of this portable pool is for entertainment purposes. You can use the pool as an inflatable pool bar, where you can host parties and invite friends over for drinks. The pool can also be used as a swimming pool pub bar, where you can serve drinks to customers and make a profit from it.

Another application of the portable water pool is for relaxation. You can use the pool to cool off during hot summer days. It can also be used as a therapy pool for people who need to relax and rejuvenate their bodies.

For families with children, the portable water pool is an excellent way to keep the kids entertained and active. They can use the pool for swimming, playing games, and engaging in other fun activities. The pool is also safe for children, and parents can supervise them while they play.

Finally, the Inflatable New Bar is ideal for commercial events such as carnivals, fairs, and festivals. The portable water pool can be used as a concession stand or a booth for selling drinks and snacks. Its durability and portability make it easy to set up and take down, and it can be used for multiple events.

You can order the Barry portable water pool from Guangzhou, China, with a minimum order of one piece. The supplier, located in Guangdong, China, offers logo printing services for businesses interested in branding their pools. With its numerous applications and scenarios, the Barry portable water pool is a must-have for anyone looking for a versatile and durable pool.

#### Quality Assured:

##### Safety Material:

0.55mm-0.9mm PVC Tarpaulin

High quality materials are essential for producing inflatable products. All of the raw materials we used are originated from the best material supplier in China—PLATO. All of the raw materials we used have passed EN71, EN14960 and ROSE test.

High quality commercial grade pvc vinyl(1400\*1400 denier vinyl)as materials stronger baffles offer maximum strengths,secure excellent legendary durability multiple rows stitching reinforced seams to bear higher against ripping HD image color,silk printing at 1400DPI,UV& rain resistant,not easy to fade.

##### Stronger Baffles:

Baffles provide the internal structure of an inflatable.Have you ever seen a bounce house with a mattress that has ballooned out? Blown baffles are likely to blame. That is why we only use baffles that are secured by Commercial Grade Vinyl at 1400\*1400 denier that provides maximum strength and durability.This material is also perfect for inflatables used in an indoor environment(as they often receive much more use and abuse)and is key to the legendary durability of our products.

##### Reinforced Seams:

We always use at least two rows of stitching on all of seams. But some seams just need a little extra, especially on high-stress areas like a bounce house's mattress. Think of those kids jumping up and down, up and down, up and down, and you get the picture. That's why we insist on reinforcing each and every one of those critical mattress seams by using a seam reinforcement strip that bridges the seam, thus eliminating the stress.

#### **HD printing:**

Industry leading digital art work, printed by the best digital printers on the market, We use a fantastic lacquer process to protect the artwork which is perfect for protecting against the varying weather. We bring in professional HD printer for product printing and the printing result can reach 1400 DPI. The durable vinyl coated nylon is resistant to UV, aging and scratching, which ensures a long-lasting company and brand profile.

#### **Safety For Kids**

We only use Finger-Safe netting on our bounce houses and combos. While still transparent enough to allow for easy viewing, the holes of this special netting are too small for even the smallest child's fingers to penetrate. The majority of bounce houses on the market, on the other hand, use cheaper standard netting. This means a child can easily fit their fingers through, potentially causing both damage to the netting and harm to the child's fragile fingers. We never cut corners with our products, and always strive to provide the safest environment possible, even if it costs a little more.
