## Quality Details

### Baffles

### Inside reinforce

Double reinforcement

### Outside reinforce

Barryinflatables make reinforcements at the welding seam which makes the products more durable and also more sealed, can last longer after inflating, see above process details.

We use strong, stainless steel anchor D ring. The anchor plate is 0.9mm PVC. It won't cause corrosion in sea. Very strong to fasten. (All anchor D-ring is stainless 316)

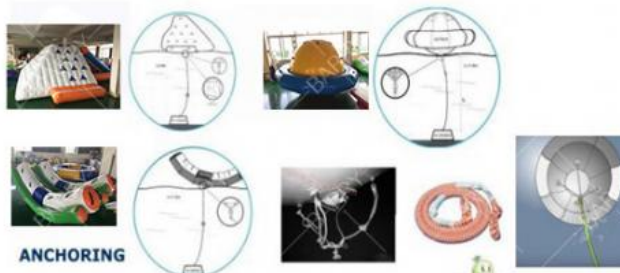

HD 6 color digital printing machine, stable and accurate. Imported oil ink (no color fading in 5 years). Make sure high efficiency, high precision and high quality. GOOD NEWS, free printing, no extra charge for your own logo on the items

## Anchoring

BUNGEE CORD  
ANCHOR TIE-DOWNS

ANCHORING

1. All the water products have the strong double D-ring
2. Attaching bungee on the double D-ring anchor plate
3. Tie the stone on the bungee, strong to fasten in sea

**Advantages of our outdoor inflatable water park games:****1. Anti-UV&heat resistance material**

Barry use customized anti UV&heat material makes the life span of the floating water park 30%-50% longer than normal material that most suppliers have been using, especially for the strong UV and high-temperature area.

**2. Stable Double connection systems**

Barry originally designed double connection systems make the whole water park very stable and robust even in the bad weather. This connection system is patent protected.
