### Outdoor DWF + EVA Material Inflatable Pontoon Gangway Jet Ski Floating Platform Docks

#### Product Description:

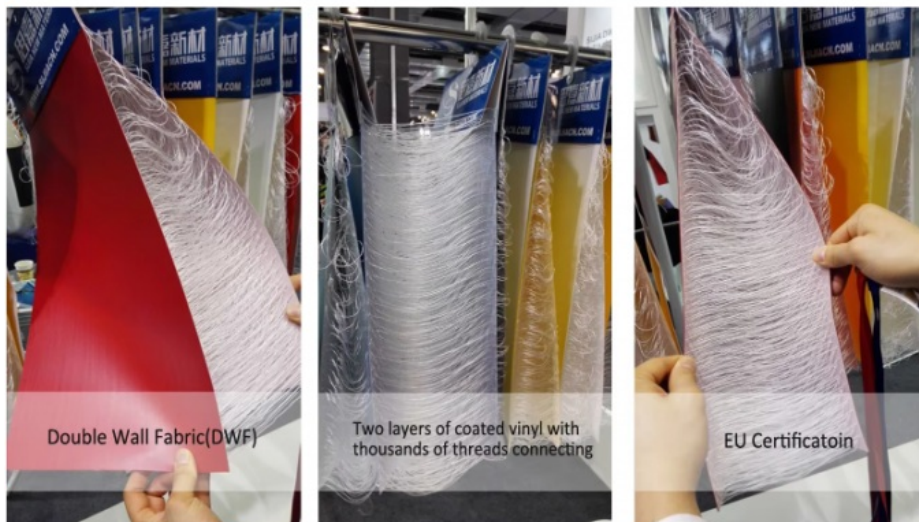

The Jet Ski Docks are designed to withstand heavy weight and can support thousands of pounds for a range of different applications. These docks are perfect for safely storing your jet ski, or for use as a launch or mooring platform. Each Jet Ski Dock is inflatable and can be tailored to your specific size specifications. This allows for a customized fit and ensures maximum stability and safety for your jet ski. Additionally, you have the option to add your own personalized logo, making your dock truly unique and eye-catching.

Any different size and color as customized.

## Material

### Floating platform inflatable Features:

- Material:** Super Rigid, High Pressure, Reinforced Double Wall Fabric / PVC Tarp / EVA
- D-rings:** 14 Stainless Steel D-Ring Ties Downs
- Handles:** 4 Soft Neoprene Super Strong, Reinforced Grab Handles
- Anti-Slip:** Eva deck pad: Non slip pad for lounging, rigid core for standing
- Air Toggle Loops:** The Air toggle loops have an easy tidy-away Velcro system for when not in use. Quick to release and rapid to secure, they keep the platform looking streamlined.
- Pressure Release Valve:** this ensures the release of excess pressure due to the expansion of air in hot temperatures
- H3 High Pressure Valve:** for Quick Inflate/Deflate, quick to inflatable in minutes.

### Usage:

1. Sunbathing Offering freedom from the confines of the yacht, a new space that's perfect for sunbathing, finding that moment of peace, or enjoying a blissful sunset.

2. Jetski dock By simply connecting any two platforms in a T-shape, you're able to configure your own jet-ski dock. This limits any damage to transoms and jet-skis, as well as providing a safer, easier transfer for yourself and your guests.

3.Maintenance raft A solid inflatable maintenance tool.your crew can easily clean, varnish, paint, polish and have the hull of the yacht looking immaculate before leaving port,work efficiently around the topsides without losing equipment over the side.
