WEIGHT NET/GR	275/230kgs

The bull rodeo can be played in two different ways. Either manual or automatic

1. Launch the mode Vehicle Press the button. Get the bull going. There are three difficulty levels for the bull to move automatically: Greenhorn, Cowboy, and Ambush. First, once you press the start button, Greenhorn will automatically continue to move the bull for 60 seconds if it is not easy to stop it. The bull will accelerate after 60 seconds, but only after a Cowboy and Ambush every 60 seconds. After three minutes, the auto model shuts off.

2. Launch the mode Manual To control the bull's movement, manipulate the handle stick. To adjust the spin speed, slide the Spin/Sway Speed rotary switch. (First, it is suggested to gradually increase the pace from slow to high.) The bull is completely under the operator's control, and no time limit.

Why Choose Barry Industrial:

Barry has been concentrated in inflatable toys for many years and is able to custom make any inflatable products according to customers' requirements, such as inflatable bouncers, castles, slides, combos and more. Our water slides(the longest slide in Dubai is made by us), water parks(more than 2000 successful cases both home and abroad), inflatable tents (inflatable/airtight/EXTRA giant) and inflatable toys (land/pool/lake/ocean) have earned ourselves a good reputation for the excellent quality, fast production, prompt delivery and price!

If you are interested in any inflatable products, contact us for quick response! 24 hours online support available!
