Application Scenarios

Backyard Parties: Ideal for birthday parties or family gatherings in the backyard. Kids can enjoy jumping, sliding, and playing with friends in a safe, private outdoor setting.

Amusement Parks and Carnivals: A great addition to small amusement parks, carnivals, or funfairs. It can attract families and provide a fun, interactive play area for children amidst other attractions.

School and Daycare Events: Perfect for school festivals, field days, or daycare outdoor activities. It offers a fun way for kids to exercise and socialize with their classmates in a supervised environment.

Community Centers: Community centers can use it for weekend events, holiday celebrations, or summer programs, giving local children a place to have active, imaginative fun.

High Precision Equipment And Workmanship:

All sewing inflatable products are made by high precision sewing machines imported from America and using unique 12 in one waterproof nylon

threads. We use double stitching for both inside and outside of the product and quadruple stitching for the force loading bottom. For each corner and connection, there are reinforce straps to make sure the product are safe enough for all kinds of jumping and playing. The length of each single sewing needle is 3mm-8mm.

Professional Fixation Design:

Each inflatable product is designed with a set of D shape or round metal ring anchors to make installation easy and firm in condition of strong wind and different places.

Durable Zipper And Safe Air Value Sheet:

Each inflatable product is designed with a strong zipper in the bottom for quick deflation and an air flap for force dispersion. For sake of security, inside airbag is designed with safe air value sheet for sudden accidents. For example, if the blower stops working, the air value sheet will slow down air leak and let people have enough time to get out of the product.
