Application Scenarios

- **Birthday Parties:** Ideal for backyard or indoor birthday celebrations. It becomes the centerpiece of the party, allowing the birthday child and friends to enjoy non - stop fun, creating unforgettable memories.
- **Amusement Parks and Carnivals:** Small - scale amusement parks or traveling carnivals can add this inflatable to their lineup. It attracts families and kids, offering a compact yet exciting play option that complements other attractions.
- **School Events and Festivals:** For school fun fairs, field days, or end - of - term celebrations, this inflatable provides a safe and entertaining activity. It encourages kids to be active and socialize with classmates in a fun - filled environment.

- **Community Centers and Churches:** Community centers hosting family days or churches organizing youth events can use this inflatable to engage kids, promoting a sense of community and providing wholesome entertainment.

High Precision Equipment And Workmanship:

All sewing inflatable products are made by high precision sewing machines imported from America and using unique 12 in one waterproof nylon threads. We use double stitching for both inside and outside of the product and quadruple stitching for the force loading bottom. For each corner and connection, there are reinforce straps to make sure the product are safe enough for all kinds of jumping and playing. The length of each single sewing needle is 3mm-8mm.

Professional Fixation Design:

Each inflatable product is designed with a set of D shape or round metal ring anchors to make installation easy and firm in condition of strong wind and different places.

Durable Zipper And Safe Air Value Sheet:

Each inflatable product is designed with a strong zipper in the bottom for quick deflation and an air flap for force dispersion. For sake of security, inside airbag is designed with safe air value sheet for sudden accidents. For example, if the blower stops working, the air value sheet will slow down air leak and let people have enough time to get out of the product.
