Product Description

Inflatable Anti-Jellyfish Sea Yacht Pool Floating Ocean Island Tent Swimming Inflatable Sea Pool With Net

Product Description:

After its exhilarating ocean rides, Superyacht tenders and toys gives us yet another kind of aquatic joy, an inflatable sea pool. For skeptics saying that the sea is as swimmable good as it gets, just think what it would be like to brace the watery wonders with complete and customizable safety. The pool provides a great way of ensuring people don't get swept away besides keeping jellyfish and other unwanted creatures at bay. And if you still think this would make a worthy yet cumbersome companion on that sail, a space-saving PVC version is ready for excursion.

Features:

The easy-to-manage PVC material in its inflatable frame makes the pool small to pack down and light, very light. It has multiple tie-down points and a ladder to get into and out of. It comes with all pumps, manuals and repair kit and can be connected to other water sports equipment, while fitting perfectly alongside the yacht slide.

There are 3 kinds of inflatable sea pool for you!

The material of this product is EVA, suitable for small size

The material is strong 0.9 PVC
