Product Description

Electric Powered 4-Wheel Heavy Duty Hand Truck Dolly with Winch for Lifting Inflatable Bounce Houses

Description:

Our Heavy-Duty Hand Truck Dolly with Integrated Winch is a specialized transport solution designed to simplify moving, lifting, and securing large inflatable products like bounce houses, obstacle courses, and event inflatables. Built for durability and ease of use, it eliminates the need for manual heavy lifting, making it the ideal companion for rental companies, event organizers, and inflatable equipment operators.

Product Name	dolly for moving the inflatables
size	customized
Material	Engineering plastic
Customized design	Available
Printing	Digital printing
Color	customized
MOQ	1 set white bounce house commercial
ODM / OEM	Available
Production lead time	2-3 weeks after design confirming
Warranty	2 years

Key Features

Powerful Integrated Winch System

Equipped with a built-in winch (manual or electric options available), this dolly lets you safely lift and secure bulky inflatable bundles up to 500 lbs (227 kg). The winch mechanism provides controlled lifting and lowering, reducing strain on operators and preventing damage to inflatable materials during transport.

Sturdy All-Terrain Design

4-Wheel Stability: Features four large, rugged rubber tires with deep treads, ensuring smooth movement over concrete, grass, gravel, and uneven outdoor terrain—perfect for navigating event sites and delivery routes.

Reinforced Steel Frame: Constructed from heavy-gauge steel with a corrosion-resistant yellow powder coating, the frame withstands repeated heavy use and harsh outdoor conditions.

Adjustable Load Bed: The curved load bed and secure strap points cradle large inflatable bundles, preventing shifting or slipping during transport.

Ergonomic & User-Friendly Operation

Padded Handle Grip: The ergonomically designed handle includes a padded grip for comfortable control, even during long transport sessions.

Compact Maneuverability: Despite its heavy-duty capacity, the dolly's narrow profile and swivel front wheels allow easy navigation through tight spaces, doorways, and event setup areas.

Quick Setup: No complex assembly required—ready to use right out of the box for immediate inflatable transport needs.

Versatile Load Capacity

Designed specifically for large inflatable bounce houses and event equipment, it safely handles loads up to 500 lbs (227 kg), making it suitable for:

- Full-size bounce houses and water slides
- Inflatable obstacle courses and interactive games
- Large event inflatables (tents, arches, and promotional displays)

Applications

Inflatable Rental Companies: Streamline delivery, setup, and teardown processes for bounce house and event inflatable rentals.

Event Organizers: Efficiently transport large inflatables to festivals, fairs, birthday parties, and corporate events.
Amusement & Recreation Facilities: Simplify moving inflatable play structures and water attractions.
Warehouse & Logistics: Ideal for moving other bulky, soft loads (e.g., folded tarps, event tents, and padded equipment).
