Product Description

Custom Branded Inflatable Hockey Australia Target Practice Goal

Product Overview

This branded inflatable hockey target goal is a professional, interactive training and activation game, perfect for Hockey Australia events, sports carnivals, community programs, and promotional campaigns. Designed with a stable, enclosed frame and multi-hole target panel, it lets players practice Target accuracy in a fun, safe way while prominently displaying your organization's logo and branding.

Key Features

Full Branding & Customization

The front panel prominently displays the Hockey Australia logo, with custom printing available for your own brand, team colors, event graphics, or safety messages. The teal base color, dot pattern, and sports-themed accents can be adjusted to match your organization's brand guidelines. The side frames also offer space for additional logos or text.

Game-Ready, Durable Build

Constructed from heavy-duty commercial-grade PVC tarpaulin, built to withstand repeated use at events, both indoors and outdoors. The wide, stable inflatable frame and reinforced base ensure the goal stays upright during active play, even with fast-paced shots. The multi-hole target panel (with different-sized openings) creates varying difficulty levels, making it suitable for players of all ages and skill levels. Mesh side panels provide visibility and airflow, while containing the ball safely inside the structure.

Easy Setup & Transport

Inflates quickly with a standard blower in minutes, and deflates compactly for easy storage and transport between venues. Includes built-in anchor points for securing it outdoors, plus optional repair kit and carry bag for long-term use.

Ideal For

Hockey association events, training clinics, and youth development programs
Sports carnivals, school sports days, and community fairs
Brand activations, corporate events, and promotional marketing campaigns
Rental businesses looking for unique, sports-themed inflatable games

This inflatable goal combines sports training, interactive fun, and powerful brand visibility into one versatile unit.
