Product Description

Flexible Blue Car Wash Mats Water Containment Printing Double - Tripple Stitch

Description:

Type: Inflatable Car Wash Mat

Barry manufactures a range of large, light weight and durable portable car wash mats manufactured from high quality PVC. These vehicle wash mats are manufactured in standard dimensions to suit a car or truck, but they can be readily made in custom dimensions to suit your requirements. Any size can be customized. The bund walls are either made from continuous foam sides for additional durability, or can be manufactured with internal legs to save on weight and make the wash mat more manoeuvrable.

A car wash mat can be easily integrated into a water treatment system to provide a low cost wash bay system. Contact us today to help your business get the best bunding and containment solution.

More Photos for Reference:

Features of inflatable car wash mats

- Manufactured in heavy duty PVC
- Mobile, flexible and fast and easy to set up
- Easily transported
- Very durable
- Bespoke manufacture available, welcome to customize your perfect products
- Resistant to chemicals

Compare to the Traditional Mat

Traditional mats require a foam ends that easy deteriorates, also foam edges are difficult to fold and store. Once foam edges are folded the creases take time to unfold (at times do not unfold at all) increasing the chances of your mat leaking from the edges. Many low-quality mats require berm brackets to hold up the edges making it impossible to set up and keep up. With the Barry Mat simply unfold and inflate for fast easy water containment.
