## Product Description

### Water Reclamation System Inflatable Car Wash Mat Water Containment Inflatable Wash Pads

*Our inflatable wash pads are a mobile fluid-tight floor and have been developed by our manufacturer in response to market demand, resulting from environmental legislation and regulations.*

When a business or company currently produces wastewater in one way or another, it has to be contained and possibly purified or removed. Companies with this responsibility include garages, transport companies, valeting companies, car washing or mobile car wash outlets when washing vehicles, marinas and boatyards when hosing down and cleaning boats, dredging companies when collecting and purifying sludge etc. the fire brigade when collecting large quantities of contaminated drain water, and cattle breeders when collecting water during cleaning and disinfecting of vehicles.

#### More Photos for Reference:

The mat is a sealed system and is designed to be inflated for use and then deflated and stored.

Standard and bespoke sizes

Inflatable mat are available in various standard sizes or bespoke made-to-measure options are available.

The standard vehicle wash mat sizes are:

- car
- van

-Fixed Bodied Truck

-Articulated Truck/Coach

As the mat are manufactured to order,bespoke sizes of both containment wall(down to 100mm diameter)and the overall width and depth are available.
