Some client's Reviews

saved my business and a lot of water.

I purchased this back in January of 2013 and have used it hundreds of times. It's easy to use and inflates in Seconds. He now have 4 units in total for our office and mobile crew. Very well built and durable.

Part of being Eco Friendly..

I've got 3,000 sf shop that needed a better way to control runoff from washing cars. We don't wash many cars a week, and we only use about 6 gallons of distilled water per car. We recently got a fleet contract and suddenly had 10 cars that needed washing, and the runoff was crazy. The mat met our requirements perfectly and didn't cost as much as resurfacing our floor or pouring concrete. Compared to other mats that cost a lot more money, this was by far the best solution.
