## Product Description

### Inflatable Garage Floor Car Mats For Save Water / Portable Truck Wash Mat

*Our inflatable wash pads are a mobile fluid-tight floor and have been developed by our manufacturer in response to market demand, resulting from environmental legislation and regulations.*

#### Portable Car Wash Mat

Barry manufactures a range of large, light weight and durable portable car wash mats manufactured from high quality PVC. These vehicle wash mats are manufactured in standard dimensions to suit a car or truck, but they can be readily made in custom dimensions to suit your requirements. The bund walls are either made from continuous foam sides for additional durability, or can be manufactured with internal legs to save on weight and make the wash mat more manoeuvrable.

A car wash mat can be easily integrated into a water treatment system to provide a low cost wash bay system. Speak to us today to help your business get the best bunding and containment solution.

#### Some client's Comments

##### **1.saved my business and a lot of water.**

I purchased this year and have used it hundreds of times. It's easy to use and inflates in Seconds. He now have 4 units in total for our office and mobile crew. Very well built and durable.

##### **2.Part of being Eco Friendly(save water,save money)**

I've got 3,000 sf shop that needed a better way to control runoff from washing cars. We don't wash many cars a week, and we only use about 6 gallons of distilled water per car. We recently got a fleet contract and suddenly had 10 cars that needed washing, and the runoff was crazy. The mat met our requirements perfectly and didn't cost as much as resurfacing our floor or pouring concrete. Compared to other mats that cost a lot more money, this was by far the best solution.Good choice to us.
