Inflatable Air Tent

Air tents (Inflatable tents as they are also known) are a revolutionary design that could change traditional camping. Instead of using steel or fibre glass poles,

The air tents use inflatable beams that are filled with a high speed air pump. The air beams then become stiff and give the tent the stability and a rigid pole-free frame in minutes

We can design a custom bubble tent to your specification, welcome customized.

we carry both 110 v & 220v pumps and 750 w & 1500 watt Blowers, or as you need. Inflatable bubble tent
