## Product Description

### Pneumatic Gallery Inflatable Tent Comercial Lighting Inflatable Garden Tent For Event

#### Description:

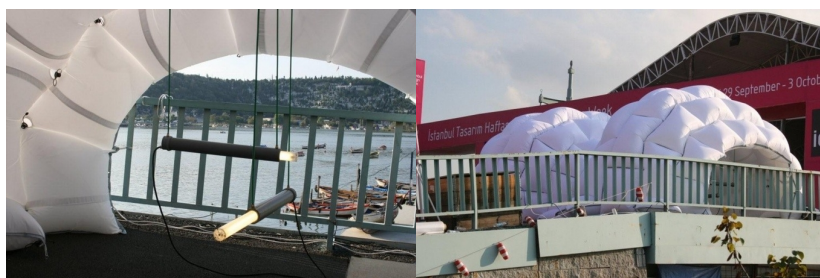

Inflatable buildings are fairly commonly used as temporary shelters — from emergency tents to pop up pavilions, and now for gallery spaces. The funky design is made from 'pillows' sewn and inflated to make a double dome. Guests at the event were invited to come in and enjoy the good party.

That is a great idea to get some indoor space if you are in a hurry and have no time to wait for a building to become available.

#### Specification:

Quality control	1. Material: High durability fire-retardant PVC Tarpaulin which has 3 layers, two coated side with a strong net inside. All are with CE certificate and certificate and FR rip stop nylon which is with certificate of BS EN 14115-2002. 2. Reinforced stitching: double stitching, with fourfold stitching at bottom stress point, in order to make sure the inflatables are strong enough. 3. Printing: We have high quality printer which imported from Japan, we make printing by our printer, so we can ensure the quality (no sticky, no fade, but sustain a long time) and save much cost, so that can offer cheaper price. 4. Anchor points on the bottom for fixing the inflatable. 5. Testing: all inflatables will be tested before packing.
Application	Camping, Wedding, Party, Exhibition and Advertising

#### More Pictures About The Details
