Product Description

Giant Novel Led Inflatable Dome Tent Customizd Lighting Inflatable Air Tent For Big Event

Types of Inflatable Cube Dome

We can design and manufacture all types and sizes of inflatable domes for both temporary use or semi permanent applications such as event domes, sports air domes, etc. Every inflatable dome can be made in a huge range of colors and be fully branded to suit your corporate image.

Dome Size:(Customized)

Inflatable domes can be supplied in a wide range of sizes from small 8m diameter air domes, right up to large inflatable domes of 24m diameter.

All our inflatable domes can be joined together with the doorways acting as joining mechanisms. This means that either the same size air domes or different size domes can be connected.

Lighting:

As an optional extra we can provide internal LED lighting systems which will transform the look and feel of your inflatable structure. The ambient lighting effect can be either one color or mixed, to produce your perfect environment.

Trussing

Our range of inflatable structures have been designed to be used as free standing products, trussing is not required to use them, however trussing can be added to enhance the environment. Full internal trussing systems are available to compliment your event structure. These can be used to hang PA equipment or other lighting options.

Colors:

All our inflatable structures are manufactured in rip-stop nylon and reinforced PVC. As standard they are made in white and grey. Although a full color range is available

Branding:

Branding can be applied permanently to any of our inflatable structures by screen printing or digital printing at the source of production. Temporary branding can be added as vinyl or Dacron adhesive panels at any stage. Please note that not all artwork is suitable for printing on our structure range. It is advised that sample artwork be supplied to us in .eps format so that we can advise the best solution. Full replaceable covers are available for our range of inflatable buildings. These can be branded and printed to ensure your inflatable structure matches your brand.
